| Notes: | | | | | | | | | |

Note 1: This form shall disclose information on derivatives trading up to the end of the preceding month, not only trading information of a single month.

Note 2: Information of overseas subsidiaries and non-public domestic subsidiaries shall be disclosed and reported by public companies. The "no reporting is required" setting shall be implemented each month if no derivatives trading is conducted.

Note 3: Original attributes of hybrid instruments shall be bifurcated, and their trading information shall be reported in this form except for embedded derivatives where the accounting treatment does not require them to be recognized separately from host contracts (non-derivatives).

Note 4: Where an overall hybrid instrument is "designated as a financial asset or financial liability at fair value through profit or loss," please account for each attribute separately as required, and information such as the nature of contract and terms of trade etc. may be described in the notes section.

Note 5: The amount of financial instruments held "for trading" as disclosed in financial reports include both the amount of "trading purpose contracts" and that of "non-trading purpose contracts – those meeting criteria for hedge accounting."
